

Olivia Farris

There are several things that I would do if I were mayor, and how they would help Elgin grow to its most amazing level and make it better than it already is.

First, I would make sure the town of Elgin is always clean. Every month I would hold a special cleanup for the city of Elgin and make sure it stays clean. When it's not that time of the month, I would clean it myself and with people who could volunteer to help me. I wouldn't want to live in a town with garbage and I don't think other people would want to either. I would hope that people would stop putting garbage on the ground and put it in the trash can. If people did that more than Elgin could be extended to its full beauty.

Next, I would like to make a fundraiser twice a year. I would like to create a fundraiser if I were mayor because a fundraiser can go a long way and get you money. With the money I would make from the fundraiser I would try to make Elgin better and with that I would hope that people would like it more than they already do. I would hope that a lot more tourists would come and see how beautiful Elgin is.

Then, I would have a get-together every other month, for people who would like to attend. I would do this if I were mayor because it could make Elgin a place where we can trust each other and trusting your neighbors and community members is very good. I would be very happy if I hosted this get-together as mayor, so I can help my community and try to make it better than it already is.

Also, if I were mayor, I would try to get more trees. The reason I would try to do this is because trees can make it more refreshing and it is nice being somewhere refreshing. If it's refreshing than people might be outside more which is healthier for them. Most people like to be healthy and if I were mayor I would want every single person in my community to be happy and healthy. Knowing that people are happy and healthy would make the community happier than it was, and that would be very nice to see and experience.

Finally, I would have a local activity. This local activity would probably be something like a farmer's market. At this farmers market everything would be on sale or cheaper than it is normally, or it is in the stores. There would be volunteers and I would help run the market. A lot of things that there aren't too many of in the store I would try to have at this farmers market, and I would be very happy to see everyone getting a lot of things at the market. This would also raise money to help Elgin, but not only does it just help Elgin, it helps the people in Elgin as well.

All in all, this is everything that I would do if I were mayor.
