

Hallie Jones

If I were mayor, I would make sure of these eight things.

One, I would help with Coronavirus. I would make sure everyone in West Linn is vaccinated so that we can try to make things a little bit normal but everyone would still be wearing masks and keeping a distance. When they make a vaccine for kids. I would also make sure that all of them get vaccinated.

Second, that all citizens feel respected, especially black people. I would support "Black Lives Matter" by allowing Black citizens to make speeches about what they have gone through. I would make sure that protests would not be violent but instead peaceful. Making sure every citizen feels safe and happy is very important to me.

The third thing I would do is to make sure that we have a clean and healthy community. I would do this by encouraging people not to litter and to pick up trash. I want West Linn to be known as a beautiful place not gross and ugly.

Fourth, I would make sure every citizen is comfortable with their home and living conditions. I would want everyone to have clean water and enough food. To do this I would have toy drives, canned food drives, and special fundraisers to make money. I would want every kid to go to school so they can have the experience of learning.

Fifth, I would make sure we have good schools. To do this I would raise money for school supplies and check in oftenly. I would make

sure everyone is kind to one another, the teachers are kind to students, and that there is enough social interaction. I would encourage schools to not bully and be mean to kids who learn differently or have special needs. Although school is a place of learning it should also be fun and a place every kid wants to be.

Sixth, I would set up summer camps for kids because some parents work in the summer. So it would be good for the kids to go somewhere other than just stay home all summer. The camps would be for lots of activities such as, sports, baking and cooking, or just fun things to do.

Seventh, I would open up more shops and places to buy things. Such as restaurants, clothing stores, and more. I would do this because there isn't much of this in West Linn and it would be better for people to just go a short distance than all the way to Bridgeport or Oregon City.

Eighth, I would ban smoking. Smoking, in my opinion, is terrible for you and for the people around you. It can make you very sick. To do this I would have people start therapy to help them. I would get rid of all the cigarettes or smoking tools from stores.

In conclusion, if I were mayor these eight things would be most important to me. If I were Mayor I would want to make sure West Linn is a happy, safe, and beautiful community.
